FOURTH QUARTER 2014
FINANCIAL SUPPLEMENT

The following should be read in conjunction with the financial statements, notes and other information contained in the Company's Annual Reports on Form 10-K, Quarterly Reports on Form 10-Q, and Current Reports on Form 8-K.

This information is preliminary and based on company data available at the time of the presentation
In the presentation that follows and related comments by Ally Financial Inc. ("Ally") management, the use of the words "expect," "anticipate," "estimate," "forecast," "initiative," "objective," "plan," "goal," "project," "outlook," "priorities," "target," "explore," "positions," "intend," "evaluate," "pursue," "seek," "may," "would, " "could, " "should, " "believe, " "potential, " "continue," or the negative of these words, or similar expressions is intended to identify forward-looking statements. All statements herein and in related management comments, other than statements of historical fact, including without limitation, statements about future events and financial performance, are forwardlooking statements that involve certain risks and uncertainties. While these statements represent our current judgment on what the future may hold, and we believe these judgments are reasonable, these statements are not guarantees of any events or financial results, and Ally's actual results may differ materially due to numerous important factors that are described in the most recent reports on SEC Forms $10-\mathrm{K}$ and $10-\mathrm{Q}$ for Ally, each of which may be revised or supplemented in subsequent reports filed with the SEC. Such factors include, among others, the following: maintaining the mutually beneficial relationship between Ally and General Motors ("GM"), and Ally and Chrysler Group LLC ("Chrysler"), and our ability to further diversify our business; our ability to maintain relationships with automotive dealers; the significant regulation and restrictions that we are subject to as a bank holding company and financial holding company; the potential for deterioration in the residual value of off-lease vehicles; disruptions in the market in which we fund our operations, with resulting negative impact on our liquidity; changes in our accounting assumptions that may require or that result from changes in the accounting rules or their application, which could result in an impact on earnings; changes in our credit ratings; changes in economic conditions, currency exchange rates or political stability in the markets in which we operate; and changes in the existing or the adoption of new laws, regulations, policies or other activities of governments, agencies and similar organizations (including as a result of the DoddFrank Act and Basel III).

Investors are cautioned not to place undue reliance on forward-looking statements. Ally undertakes no obligation to update publicly or otherwise revise any forward-looking statements, whether as a result of new information, future events or other such factors that affect the subject of these statements, except where expressly required by law. Reconciliation of non-GAAP financial measures included within this presentation are provided in this presentation.

Use of the term "loans" describes products associated with direct and indirect lending activities of Ally's operations. The specific products include retail installment sales contracts, lines of credit, leases or other financing products. The term "originate" refers to Ally's purchase, acquisition or direct origination of various "loan" products.

(1) Corporate and Other primarily consists of Ally's centralized treasury activities, the residual impacts of the company's corporate funds transter pricing and asset liability management activities, and the amorization of the discount associated with debt issuances and bond exchanges. Corporate and Other also includes the Ally Corporate Finance business, certain equity investments and reclassifications, eliminations between the reportable operating segments, and overhead previously allocated to operations that have since been sold or discontinued
(2) Core pre-tax income (loss) is a non-GAAP financial measure. It is defined as income from continuing operations before income tax expense and primarily bond exchange OID amortization expense
(3) Includes accelerated OID expense of $\$ 6$ million in $4 Q 14$ and $\$ 7$ million in $2 Q 14$ due to debt redemption

Allowance for loan and lease losses includible in Tier 2 capital and other adjustments

## Total risk-based capital

Total shareholders' equity
less: Preferred equity
Goodwill and intangible assets
Tangible common equity ${ }^{\text {(2 }}$

## Total assets

less: Goodwill and intangible assets
Tangible assets
Note: Numbers may not foot due to rounding
Note: Numbers may not foot due to rounding
(1) We define Tier 1 common as Tier 1 capital less non-common elements including qualified perpetual preferred stock, qualifying minority interest in subsidiaries, and qualifying trust preferred securities. Ally considers various measures when evaluating capital utilization and adequacy, including the Tier common equity ratio, in addition to capital ratios defined by banking regulators. This calculation is intended to complement the capital ratios defined by banking regulators for both absolute and comparative purposes. Because GAAP does not include capital ratio measures, Ally believes there are no comparable GAAP financial measures to these ratios. Tier 1 common equity is not formally defined by GAAP or codified in the e efederal banking regulations and, therefore, is considered to be a non-GAAP financial measure. Ally believes the Tier 1 common equity ratio is important because we believe analys and banking regulators may assess our capital adequacy using this ratio. Additionally, presentation of this measure allows readers to compare certain aspects of our capital adequacy on the same basis to other companies in the industry.
(2) We define tangible common equity as common stockholders' equity less goodwill and identifiable intangible assets (other than mortgage servicing rights), net of deferred tax liabilities. Ally considers various measures when evaluating capital adequacy, including tangible common equity. Tangible (2) We define tangible common equity as common stockholders' equity less goodwir and didentitiable intangible assets sorher than mortgage servicing rights), , eet of deferred tax liabilitites. Aly considers various measures when evaluating capital adequacy, including tangible common equity. Tangible using this measure. Additionally, presentation of this measure allows readers to compare certain aspects of our capital adequacy on the same basis to other companies in the industry.
